

Roosc Zaño

Day 2

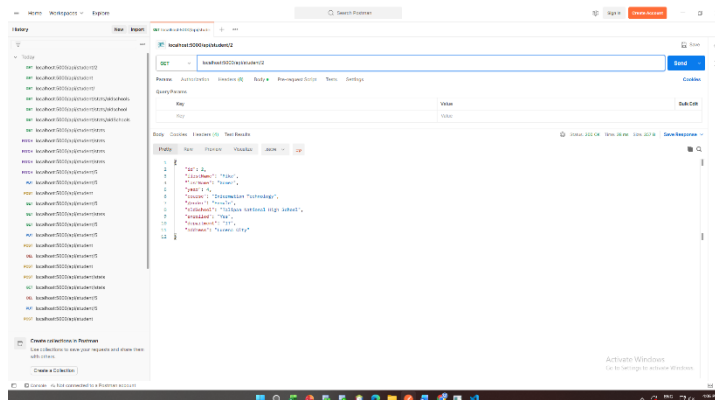

Student Enrollment Web API – Console App to Full CRUD + Postman

Part 3 – API: Write Operations

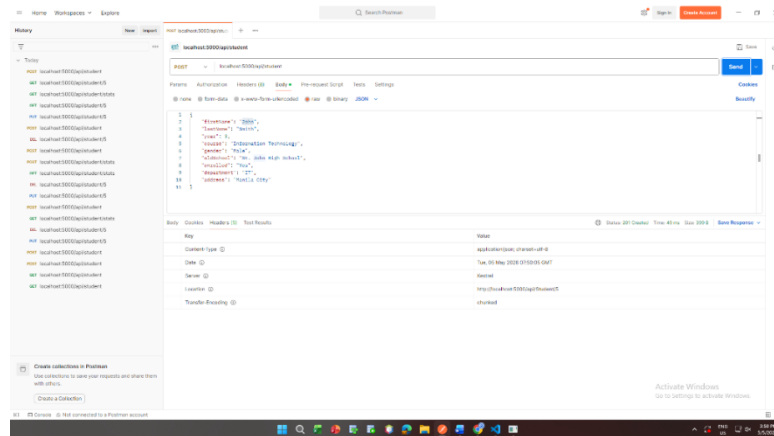

GET /api/student

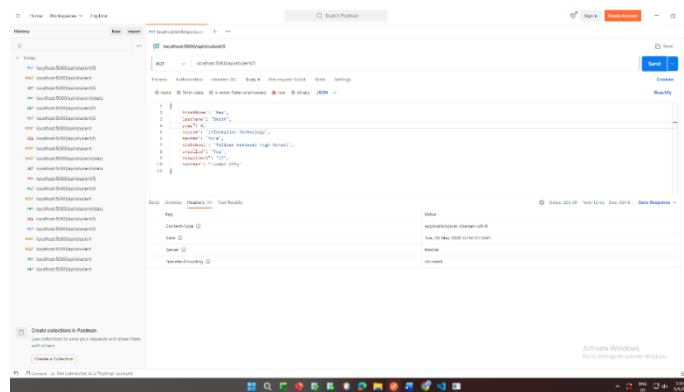

GET /api/student/2

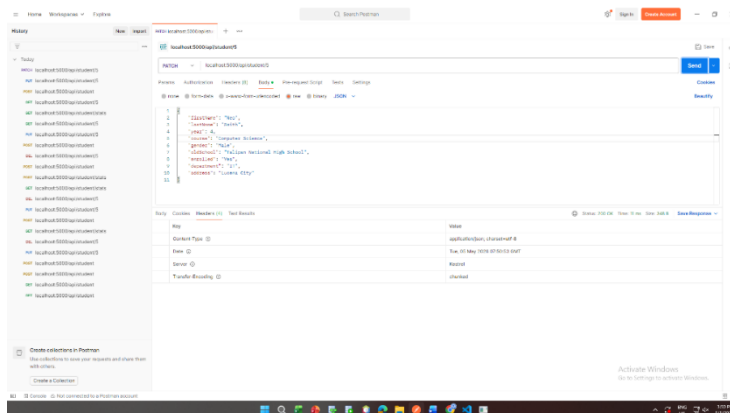

POST /api/student

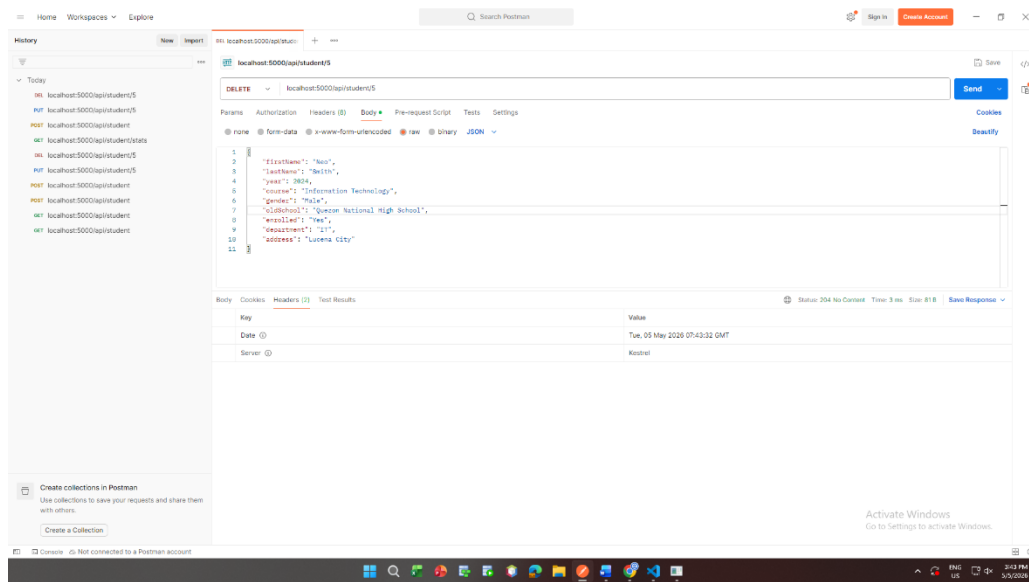

PUT /api/student/5

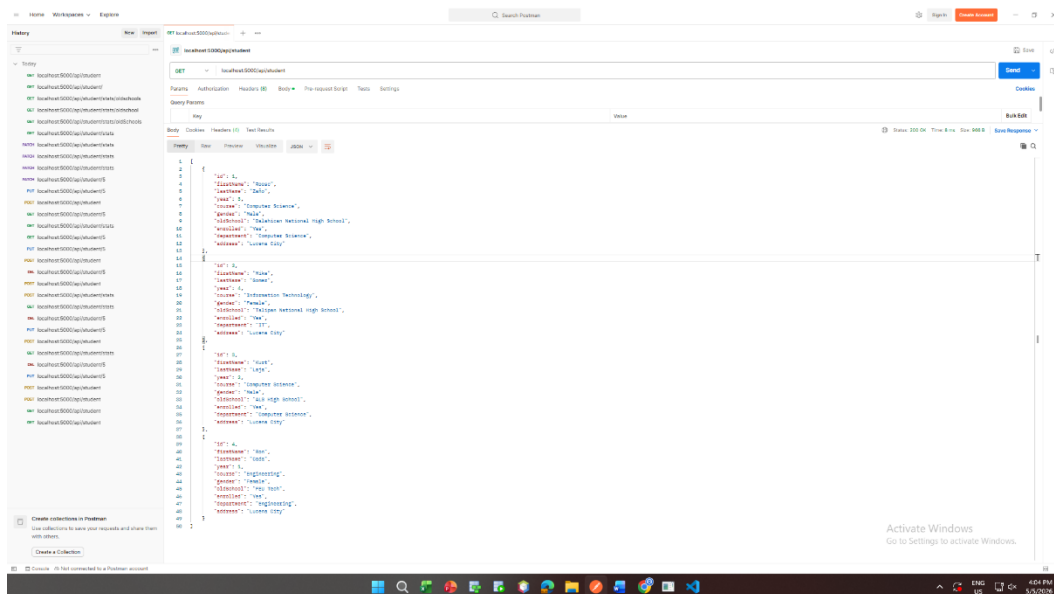

PATCH /api/student/5

DELETE /api/student/5

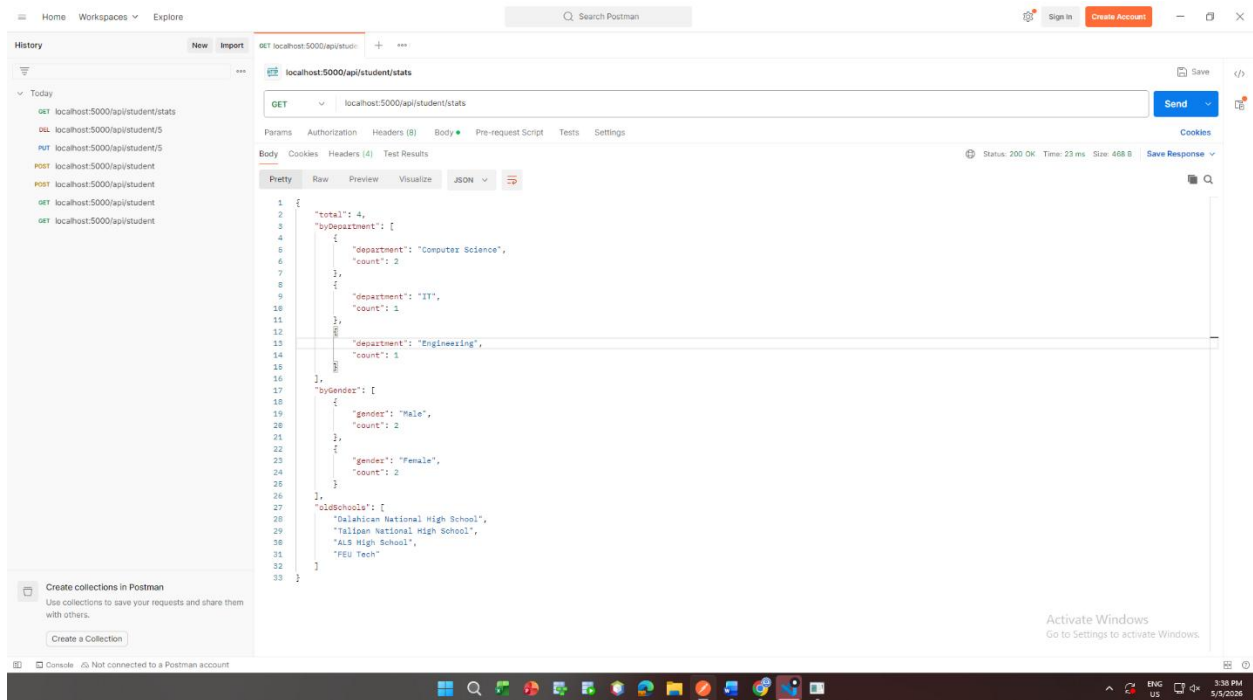

GET /api/student

Part 4 – Polish & Collections

GET /api/student/stats

The screenshot shows the Postman interface with a GET request to `localhost:5000/api/student/stats` successfully executed. The response is a JSON object with the following structure:

```
1 {
2   "total": 4,
3   "byDepartment": [
4     {
5       "department": "Computer Science",
6       "count": 2
7     },
8     {
9       "department": "IT",
10      "count": 1
11     },
12     {
13      "department": "Engineering",
14      "count": 1
15     }
16   ],
17   "byGender": [
18     {
19       "gender": "Male",
20       "count": 2
21     },
22     {
23       "gender": "Female",
24       "count": 2
25     }
26   ],
27   "schools": [
28     "Dalajhican National High School",
29     "Talipan National High School",
30     "ALS High School",
31     "FEU Tech"
32   ]
33 }
```

The interface also shows a list of recent requests in the History panel on the left and a status bar at the bottom indicating the system time as 1:38 PM on 5/5/2026.
